

Channel-by-channel execution playbook

With exact touch timing, message goals, and what each touch is trying to achieve for 'Workforce X'.

I'm assuming:

- target market is UK and Ireland
- buyers are COO, CFO, CIO, CTO, and transformation leaders
- this is a named-account outbound motion
- email is the anchor channel, with LinkedIn and phone layered in

Core rules

- Use business hours in UK/Ireland
- Prioritize Tuesday to Thursday for email and calls
- Keep first-touch messaging problem-led, not product-led
- Every touch should have one job only
- Do not ask for a meeting in every channel the same way

30-day execution playbook

Week 1: Establish relevance

Touch 1

Day 1, 8:05 AM local

Channel: Email

Audience: All active contacts

Goal: Earn relevance and curiosity

Message goal:

Show you understand the buyer's world:

- pressure to improve output
- resistance to expanding fixed headcount
- need for practical AI execution, not just strategy

Best framing by role:

- COO: more operational capacity without more hires
- CFO: productivity without adding fixed cost
- CIO/CTO: AI execution support without building a larger team
- Transformation: delivery capacity for change programs

CTA goal:

Low-friction interest, not a hard sell

Success signal:

Open, reply, click, forward

Touch 2

Day 2, 11:00 AM to 1:00 PM local

Channel: LinkedIn profile view

Audience: LinkedIn-valid contacts in LinkedIn cohorts

Goal: Create familiarity before follow-up

Message goal:

No message yet. Just create recognition.

Success signal:

Profile view visibility, later connection acceptance, improved reply odds

Touch 3

Day 3, 4:30 PM local

Channel: LinkedIn follow or light engagement

Audience: Contacts with visible activity

Goal: Build soft credibility

Message goal:

Engage only if something is genuinely relevant:

- transformation post

- AI comment
- operational efficiency topic
- finance or productivity post

Success signal:

Engagement, profile revisit, easier acceptance later

Week 1 to 2: Add pressure carefully

Touch 4

Day 4, 9:00 AM to 11:30 AM local

Channel: Phone call 1

Audience: Tier 1 accounts and high-confidence contacts only

Goal: Confirm ownership of the problem

Message goal:

Do not pitch heavily. Test:

- is this a live problem?
- do they own it?
- is there someone better?

Call opener goal:

“Many firms are trying to improve productivity and delivery capacity without adding permanent headcount. I wanted to see if that sits more with you or someone else internally.”

Success signal:

Conversation, referral, voicemail callback, disqualification

Touch 5

Day 5, 3:30 PM to 5:00 PM local

Channel: LinkedIn connection request

Audience: Cohorts with LinkedIn

Goal: Create a second surface for recognition

Message goal:

Very short note only:

- relevant problem
- no full pitch
- no big CTA

Example goal:

“I work with firms trying to increase execution capacity without defaulting to more permanent hiring. Thought it may be relevant.”

Success signal:

Connection accepted

Touch 6

Day 7, 8:10 AM local

Channel: Email 2

Audience: All non-responders still in play

Goal: Introduce a second angle

Message goal:

Add a new lens, not a repeat:

- cost discipline
- AI adoption bottleneck
- transformation delivery strain
- governance-friendly execution support

Role-based angle examples:

- CFO: avoid adding fixed operating cost
- CIO/CTO: practical bandwidth for AI rollouts
- transformation: execution capacity for programs already approved

Success signal:

Positive replies, clicks, internal forwarding

Week 2: Reinforce through presence and proof

Touch 7

Day 8, 10:00 AM to 12:00 PM local

Channel: Phone call 2

Audience:

- opened Email 1 or 2
- accepted LinkedIn request
- priority Tier 1 contacts

Goal: Convert awareness into conversation

Message goal:

Reference the issue, not the email:

- “I wanted to follow up because this tends to land with teams under pressure to increase output without expanding headcount.”

Success signal:

Live conversation, buyer confirms problem, meeting booked

Touch 8

Day 9, 1:00 PM local

Channel: Executive asset or brief

Audience: Especially CFO, CIO, transformation leaders

Goal: Give a reason to engage without committing to a call

Message goal:

Share one useful asset:

- one-page POV
- AI adoption in regulated environments
- productivity without headcount growth
- transformation execution brief

Success signal:

Asset opens, forwards, replies

Touch 9

Day 10, 5:00 PM local

Channel: LinkedIn direct message

Audience: People who accepted connection

Goal: Re-anchor relevance in a softer setting

Message goal:

Short note:

- mention the problem
- mention the asset
- no long pitch

Success signal:

Reply, asset engagement, profile revisit

Week 3: Move toward conversion

Touch 10

Day 13, 8:15 AM local

Channel: Email 3

Audience: Still-active non-responders

Goal: Simplify the message

Message goal:

Shorter email, sharper point:

- firms want more capability
- they do not want to solve every challenge with more hiring
- Workforce X is an alternative

CTA goal:

“Worth a quick look?” or “Useful to compare this with hiring another FTE or two?”

Success signal:

Positive replies, shorter reply-to-meeting path

Touch 11

Day 14, 9:30 AM to 11:30 AM local

Channel: Phone call 3

Audience: Tier 1, engaged contacts, multi-touch exposed contacts

Goal: Convert interest into a scheduled discussion

Message goal:

Reference business pressure:

- productivity
- operating leverage
- AI execution
- transformation delivery

Success signal:

Meeting booked, referral to another stakeholder

Touch 12

Day 15, 2:00 PM local

Channel: LinkedIn touch or comment

Audience: Active LinkedIn contacts

Goal: Stay visible without over-messaging

Message goal:

Light relevance touch, not a chase

Success signal:

Conversation opens, acceptance stays warm

Touch 13

Day 17, 11:00 AM local

Channel: Invite to roundtable or discussion

Audience: Best-fit senior buyers

Goal: Offer a lower-pressure conversion path

Message goal:

Invite them into a small executive conversation around:

- AI adoption in regulated environments

- productivity without fixed headcount growth
- transformation delivery capacity

Success signal:

Invite acceptance, reply, delegated attendee

Week 4: Close, disqualify, or escalate

Touch 14

Day 21, 8:20 AM local

Channel: Email 4

Audience: Remaining viable contacts

Goal: Final value-led follow-up

Message goal:

Add one final useful angle:

- example use case
- simple commercial comparison
- specific business problem

Success signal:

Late positive replies, warm redirects

Touch 15

Day 22, 10:00 AM to 12:00 PM local

Channel: Phone call 4

Audience: Highest-value remaining accounts

Goal: Final attempt to identify owner or disqualify

Message goal:

Ask:

- whether this belongs with them
- whether there is a better internal owner
- whether timing is the blocker

Success signal:

Referral, timing insight, disqualification

Touch 16

Day 26, 8:30 AM local

Channel: Close-the-loop email

Audience: Final non-responders

Goal: End professionally and create one last chance to respond

Message goal:

Short, respectful close:

- “I’ll leave it there if this is not a priority”
- “Happy to redirect if someone else owns this”

Success signal:

Referral, late reply, polite disqualification

Message goal by channel

Email

Job: Explain the problem clearly and create relevance

Do not use it for: Long product detail or heavy CTA overload

LinkedIn

Job: Increase recognition, trust, and familiarity

Do not use it for: Copy-pasting long email pitches

Phone

Job: Validate ownership, urgency, and fit

Do not use it for: Long explanation if they are cold

Executive content

Job: Provide proof and substance without asking for a full meeting immediately

Do not use it for: Generic marketing collateral

Event or roundtable

Job: Convert skeptical senior buyers through peer-level relevance

Do not use it for: Broad webinar-style promotion to tiny named lists

Role-specific message goals

COO

Lead with:

- throughput
- operating drag
- execution bottlenecks
- capacity without extra hiring

CFO

Lead with:

- cost discipline
- productivity
- flexibility vs permanent headcount
- controlled investment

CIO / CTO

Lead with:

- execution bandwidth
- AI implementation capacity
- governance
- practical deployment support

Transformation leader

Lead with:

- under-resourced delivery
 - program execution
 - stakeholder pressure
 - modernization without building a larger team
-

Channel timing summary

Best send windows

Email

- Tuesday to Thursday
- 8:00 AM to 8:30 AM local
- secondary window: 1:00 PM to 2:00 PM local

Phone

- 9:00 AM to 11:30 AM local
- secondary window: 4:00 PM to 5:30 PM local

LinkedIn

- midday or late afternoon
- avoid sending all LinkedIn touches immediately after every email

Executive asset

- midday often works best
 - especially after one or two prior touches
-

Attribution goals by touch

Early touches

Measure:

- deliverability
- open rate
- profile visibility
- LinkedIn acceptance

Middle touches

Measure:

- reply rate
- positive reply rate
- phone connect rate
- content engagement

Late touches

Measure:

- meeting booked rate
- meetings by cohort
- opportunities by cohort
- first-touch and last-touch conversion impact

What good looks like

By the end of 30 days, you want to know:

- which role is converting best
 - which message angle is converting best
 - whether LinkedIn adds lift over email-only
 - whether calls add lift for senior buyers
 - whether content or invite touches improve conversion
 - which sequence produces the highest meeting rate and opportunity rate
-

Recommended default sequence for Workforce X

If you want one default motion, use:

1. Email 1
2. LinkedIn view
3. Call 1
4. LinkedIn connect
5. Email 2
6. Call 2
7. Executive brief
8. LinkedIn DM
9. Email 3
10. Call 3
11. Invite
12. Email 4
13. Final call
14. Close-the-loop email
